

## Brain Building Extras - Choose One

<p>Make a comic strip and use speech bubbles to tell the story.</p>	<p>Choose any 4 numerals. How many numbers can you make from them? (2 4 6 8) 2, 24, 246, 2468 etc...</p>	<p>What is your favorite book or story? Tell me why and draw a picture of your favorite part.</p>	<p>If you were the teacher, what would you have the class do today? Write your own lesson plan.</p>
<p>Create a secret code and write a friend a message. (example: A-1, B-2, C-3)</p>	<p>Draw your self-portrait. Now draw what you think you will look like in 20 years.</p>	<p>Write some riddles. Have 3 statements and one question. (example: I am a mammal. I sleep during the day. I have wings. What am I?)</p>	<p>Choose a topic you would like to research and find some info to share with the class.</p>
<p>If you could rearrange our classroom, what would you do? Make a map of the class with your design.</p>	<p>Plan a new invention. Draw your prototype. Write about what your invention can do.</p>	<p>Read a book just for fun!</p>	<p>Make a list of interesting words. Look for literary language that paints a picture in the reader's mind.</p>
<p>Write a fractured fairy tale. (Example: <i>The Three Little Wolves and the Big Bad Pig</i>)</p>	<p>Choose a letter and write a tongue twister using alliteration. (She sells seashells by the seashore.)</p>	<p>Pick a number. Double it. Then double it again. Keep going as far as you can. (2+2= 4, 4+4=8, 8+8=16, 16+16=32, etc. . .)</p>	<p>Create an animal. (example - Part bird part fish - it would be a <u>bish</u>. It can fly and swim.)</p>
